

VanDutch 32, unique by nature

MOTORBOATS

Cantiere del Pardo presented the new VanDutch 32 at the exclusive location La Torre di San Marco in Gardone Riviera, on the shores of Lake Garda.

The entry-level of the VanDutch range features the same minimalist and iconic lines that characterise the hulls of the brand founded in Holland in 2008 and acquired last year by the Forlì shipyard. However, proportions and functionality have been rethought, with a focus on performance, thanks to the special design of the hull. We are talking about a light hull with reduced planing speed.

Besides the presentation of the VanDutch 32, the event also marked another debut: the opening of the VanDutch Italia showroom in Moniga, overlooking Lake Garda.

More space, more fun

The 30-footer of the previous model has been extended to the new 32. This means a complete redesign of the hull in terms of width and length, guaranteeing greater habitability both below deck and out in the open. The height of the freeboard has also been increased, providing greater safety in walking areas.

The deck is a place to relax but also to have fun, thanks to the sound system and diffused lighting, but also to the new cocktail bar counter complete with a refrigerator for food and drinks. A practical foldaway washbasin is located under the seat of the adjustable-back sofa.

VanDutch 32 electronics powered by Garmin

The onboard electronics, designed by Garmin Marine with EmpirBus technology, allow the VanDutch 32 to be operated from a single console. The choice is between the Garmin 12" multifunction display (standard) and the optional 16" version, which integrate EmpirBus technology to coordinate the boat's entire domotics.

There are many possibilities for customisation, starting with fabrics and colours, but also different hull colours to choose from to give the boat a unique character.

Technical specifications

Length 32 ft / 9.81 m

Beam 9.51 ft / 2.90 m

Draft 3 ft / 0.91 m

Displacement 9,920.8 lbs / 4.5 t

Passengers on board 8

Fuel tank capacity 100 G / 400 l

Freshwater tank capacity 20 G / 76 l

Engines

Standard: 1 x Volvo v8 430-CE Gasoline

Optional:

- 2 x Volvo V6 280-CE Gasoline

- 1 x Volvo D6-380/DPI Diesel

- 2 x Volvo D4-300/DPI Diesel
